

Course Fact Sheet – MSP

Managing Successful Programmes (MSP) Foundation & Practitioner

5 days course

MSP is an internationally recognized best practice programme management method that can be tailored to suit any type of working culture and any size or type of programme. Launched in 1999 and currently on its 3rd refresh, MSP is a mature method and has been used successfully around the world.

This course includes an in-depth study of the MSP method, as well as the highly-valued Foundation and Practitioner certification exams.

Benefits of attending include; career boost, ability to define strategic roadmaps, and share a common language with other Programme Managers.

Course runs 9:00 – 17:00 each day

MSP (Managing Successful Programmes) is a structured framework for defining and managing complex change. MSP provides an approach to managing the needs and expectations of diverse stakeholder groups, by focusing on *benefits*. A profile of interlinked projects can then be run to deliver tactical and operational changes.

Adoption of MSP is accelerating across both public and private sectors because it leads to more effective, results focused management of change.
